VIPIN KUMAR

SENIOR ANDROID DEVELOPER | KOTLIN | JETPACK COMPOSE

+91 87081 53354 · vicky7230@gmail.com

linkedin.com/in/vipin-kumar-ba0540100 · github.com/vicky7230 · medium.com/@vicky7230

Android developer with 8+ years of experience building reliable, user-focused mobile products for travel, mobility, logistics, and developer platforms. Strong in Kotlin and Java, modern Android architecture, Jetpack Compose, Coroutines, Flow, and end-to-end delivery from product intent to production release. Currently building travel experiences at American Express Global Business Travel.

EXPERIENCE

American Express Global Business Travel

Android Developer III Jul 2025 - Present

Building and shipping Android experiences for a global business-travel platform. Gurugram, India · Hybrid.

Rapido

Senior Product Engineer - Android Mar 2024 - Apr 2025

Owned Android product work across Captain and mobility workflows: built BYOB and Rent Mode, migrated a suspension module to Room + Kotlin Flow, and refactored Live Order Support around a BFF integration.

MoEngage

Senior Android Engineer Jun 2020 - Mar 2024

Built and maintained Android SDK capabilities, Notification Center UI, and partner integrations with a focus on reliable, reusable mobile infrastructure.

Sequel Logistics

Android Engineer Nov 2017 - Apr 2020

Delivered B2B and B2C logistics applications end to end, including location tracking, attendance, hub operations, and delivery workflows.

YoScholar.com / Agrim

Software Developer Jan 2017 - Oct 2017

Built an offline-first Android Cloud POS app using Couchbase Lite, Magento, and PHP APIs for resilient retail workflows.

SELECTED CASE STUDIES

Amex GBT Mobile

Travel platform · Kotlin · Compose

Travel planning and trip-management experiences designed for dependable everyday use.

Rapido Captain

Mobility · Kotlin · Flow · Room

Driver workflows including BYOB, Rent Mode, support, and real-time order operations.

Sequel Logistics

Logistics · Tracking · Operations

Operational tools for shipments, hubs, attendance, and delivery visibility across the field.

Sequelite

Logistics · Android · Offline-first

A field-ready logistics experience supporting dependable work in connectivity-constrained environments.

MoEngage Android SDK

Developer platform · Java · Kotlin

Reusable SDK capabilities and integrations that help product teams deliver richer mobile engagement.

OPEN SOURCE

- TASKER Multi-Module - modular Android architecture and reusable app foundations.
- Multi-Module Clean Architecture - practical separation of concerns for Android apps.
- Sunny, Headlines, Paprika, and Cucumber - focused Android learning and utility projects.

TECHNICAL EXPERTISE

Languages	Kotlin · Java
Android	Jetpack Compose · Coroutines · Flow · Room · Retrofit · LiveData
Architecture	MVVM · MVI · MVP · Clean Architecture
Libraries	Dagger2 · Hilt · Firebase · Play Billing · Couchbase Lite
Delivery	Android Studio · Git · REST APIs · CI/CD · debugging

EDUCATION & RECOGNITION

B.Tech, Information Technology - Assam (Central) University, 2011-2015

AMCAT certifications · Security White Belt · Hindi and English

ENGINEERING FOCUS

- Designing maintainable Android systems that can evolve without slowing product teams.
- Balancing user experience, performance, testability, and delivery speed in production.
- Partnering with product, design, backend, and QA from discovery through release.
